

The Mercy Circle of Caring™

Taking care of the body is our practice. Taking care of the soul is our heritage.

We understand that when it comes to healing, spiritual care can be just as important as medical care. That's why we have a dedicated floor at Mercy Western Hills. It's called the Emmanuel Floor. Here, everything from the artwork to the music, from the Chapel to the staff all promote an air of comfort, compassion and spirituality. We're committed to taking care of the spiritual side of healing. It's part of our heritage and that makes it part of the Mercy Circle of Caring.
