

The Mercy Circle of Caring™

**Warm, compassionate,
sensitive. And that's just
the registration desk.**

We have a different approach to patient care. We don't just look at the whole problem; we look at the whole person because health issues impact more than just your body. It's a comprehensive approach that works. In fact, it's one of the reasons that all five Mercy hospitals rank in the top eight in greater Cincinnati. It's a testimonial that lets you know that when you leave a Mercy Hospital you not only feel better physically, the rest of you feels better too. Comprehensive care. It's part of the Mercy Circle of Caring.
